Profile

I am a 20 years **Web Developer** and I have been delving into programming for the past **4 years**. I usually focus on good communication to **avoid reworks** and I **do not fear frameworks** since I always focus on mastering its **base language**., that is essential for me.

Technologies

Angular | **NGRX** | **React** | **Next** | **TypeScript** | Jest | Redux | SASS | HTML | CSS | JS | NodeJS.

Experience

2 years of **Web Development** (frontend focused) at **CodeTech**, where I actively participated in dozens of projects of the most varied scopes. I currently work as **PJ**, willing to change to **CLT** or continue as **PJ** without any problems.
